

Leave a legacy

A legacy to the RSPCA Keighley, Craven & Upper Wharfedale Branch will provide crucial funds.

We could not carry out our work without the generous support of the public.

You can leave a legacy by making a Will or by adding a Codicil (a document which specifies alterations to your will). If you are making a Will, please remember that the RSPCA Keighley, Craven & Upper Wharfedale Branch and all the other RSPCA branches are separately registered charities run by volunteers.

So, if you would like our work to benefit animals in your local area, we would respectfully suggest that your legacy reads:

I give the sum of £.....(or specify a share of residue) to the RSPCA Keighley, Craven and Upper Wharfedale Branch, Registered Charity Number 232237, for its general purposes and I declare that the receipt of the Honorary Treasurer or other proper officer of the said Branch for the time being shall be a full and sufficient discharge for the said legacy.

Please note that a Will or Codicil needs to be properly witnessed, and you should obtain legal advice.

Gifts to registered charities are generally exempt from Inheritance & Capital Gains Tax, so a gift to the RSPCA Keighley, Craven & Upper Wharfedale Branch would therefore greatly benefit local animals with minimum burden to your estate.

RSPCA Keighley, Craven & Upper Wharfedale Branch

PO Box 59, Barnoldswick, BB18 9AN Registered Charity Number: 232237

The RSPCA helps animals in England and Wales. The RSPCA only exists with the support of public donations.

RSPCA - Keighley, Craven & Upper Wharfedale Branch

Registered Charity Number: 232237

Leave it to us

Local animals need your help

rspca-craven.org.uk

Local animals need your help

Our branch, run by volunteers, delivers vital animal welfare services and covers almost 350 square miles. Towns and villages served by the branch include llkley, Keighley, Skipton, Barnoldswick, Earby, Grassington, Haworth, Settle, and more.

Some animals need our help because they have been badly treated or abandoned. Others because their owners can no longer care for them. Most of our

rescue animals come via the Inspectorate team and usually require veterinary help. We look after them (in foster care or boarding) until we can find them safe, happy new homes. We also engage in welfare neutering and in highlighting important issues such as microchipping and neutering.

> Your branch spends many thousands of pounds a year caring for local animals.

Your branch

Here are two cases your local branch has helped

Barry came to us via the Inspectorate. As you can see, he had been chained up in a yard in appalling squalor and was extremely emaciated and stressed. With much love, compassion and care, Barry put on weight and he is now loving life.

RINKY & TINKY

Rinky and Tinky came to our Branch in a

poor condition, via the Inspectorate, along with 8 others from a household of 80 cats. They needed a lot of tender loving care, together with veterinary attention for their weepy eyes and bad snuffles. They spent over four months in the care of dedicated Branch fosterers. After a terrible start, they are now happy and healthy and have found the forever homes they deserved.
